References

“Thanks to Zero Friction, we have peace of mind. Their software provides us with business security and stability in various aspects. This translates to internal efficiency gains, as the incoming data is automatically converted into invoices, allowing us to save at least one full-time equivalent (FTE) position.”

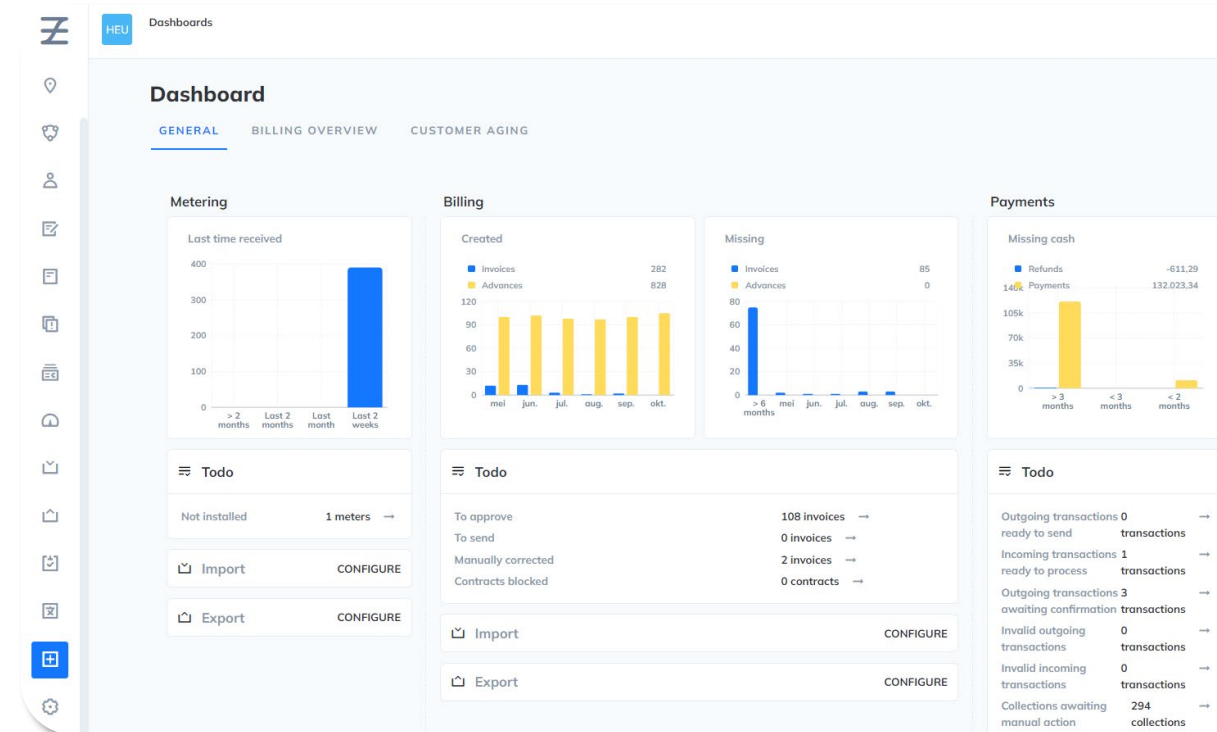

Eric Perdu, Senior Commercial Manager

Mission - Vision

We will be **the go-to** customer interaction and billing platform for heating & cooling suppliers **all across Europe and beyond**.

Together with our clients and partners, we envision a world where **affordable, reliable and sustainable energy is accessible to all**.
